GRAHAM ELECTRONICS

You will have probably received from Graham Electronics their club offer. Until March 31, 1955 they will pay into the Radio Club treasury 15% of the purchase price of Amateur Gear costing \$25.00 or more. When buying any items running up into this amount be sure to see that the payment voucher names the Indianapolis Radio Club Inc. as the club. Let's see what amount we can get to the club building fund by this generous offer of Graham's Electronics.

MARION COUNTY CENTURY CLUB

You will recall the announced Marion County Century Club announced last year. At long last we print the names of those who have made the grade. Remember, the contest is going on yet so if you haven't gotten your first 25 contacts for the first certificate get busy on it and get both it and work up to the full indorsement.

CLUB DOINGS

Since last published the club has been rolling along. A gift exchange at club before Christmas showed a remarkable exchange of gifts. At this exchange a 20 pound turkey donated by Don McFarling was raffled off and won by Claude Richie. Our new officers took over the reins the 7th of Jan and have been getting the feel of the reins. A vote was taken at last meeting to determine frequency of meetings and it was overwhelming that they be held every week. Following this vote it was decided to continue much the same as last year in so far as having just one meeting of a feature nature each month. Lighter programs being presented on the other Fridays such as movies on the First Friday, Business meeting the second Friday, Novice night the third Friday and the main program the fourth Friday.

A code tape machine was purchased and is being used in various ways. At present the machine is used a half hour before club (7:30 to 8:00) to get code speeds up. Lack of interest in this may necessitate a change and it is being planned to have on the air sending with the tape. If you want this pre-club practice continued be sure to get there early and make use of the offer. The machine is for rent between club uses.

Directors meetings were announced as being the Monday night preceding the 2nd Friday of each month.

The club's auditing committee reported a club balance of \$1,015.66 in the treasury at the close of Ron Williams term as club treasurer. The building fund had \$1,181.75 in it at the start of 1954 and with a \$50 pledge paid, \$17.18 in labels (Keep on saving them it is beginning to have an effect) \$28.28 from club 10% from the past auction two turkey raffles, (Turkeys by courtesy of Don McFarling) \$49.50, three interest periods on deposited money in the building fund amounting to \$17.53. The grand total to date then in the building fund is \$1,344.24. That is a bigger sum than we had a year ago but it still needs to be larger. Any pledges paid in now will swell that amount. This brings us to the point that when the fund was set up that those making and paying their pledges would be able to request a return of their money if the club had not started the club house by August of this year. So, let us get up and doing so that we may get this under way. Once it is started more will come into the fund we are sure and then the club house would be a reality.

It has been proposed at club that we have a pitch in dinner at which all the YL's, XYL's, mothers, etc turn out. A place is being arranged and as soon as this is accomplished it will be announced. Let's make this a big turn out and get acquainted with each other families, then when we get that place of our own we can continue these meetings and get to know and work together better still with the families that make up the club membership.

INVITATION

If you haven't been out to club lately why not drop out one of these nights and see what is going on, maybe you can get interested again and help out. Everyone is welcome.
